## **PLACEMENT CELL – FORM B**

### **STUDENT REGISTRATION FORM**

#### **General Instructions:**

- Placement rules are bound by the policy document IIST/PC/2/Rev3.0 Date: 16.06.2020
- The students are requested to register with the Placement Cell with prior approval from their respective Departments, to participate in the tests/interviews for internship/placement opportunities with industries and Host Laboratory.
- A student is allowed to appear in tests/interviews for internship/placement only until he/she receives a confirmed offer from a company (refer policy document IIST/PC/2/Rev3.0 Date: 16.06.2020)
- A student who applies and gets shortlisted (for internship/placement) is bound to go through the entire selection process unless rejected midway by the company. Any student who withdraws deliberately in the midst of a selection process by a company will not be permitted to appear for further placement activities.
- Students are advised to attend the PPT before appearing for any company's selection process, as rejecting an offer leads to loss of opportunity for another student and also it would be regarded as a bad remark about IIST by the Company. In such cases, Placement Cell has the right to decide on allowing the student to appear in subsequent interviews.
